

WORKING IN 9 LOCATIONS THROUGHOUT THE U.S.

World Vision works in some of our nation's most distressed and underserved communities where poverty is high and opportunities are limited, concentrating efforts in critical areas—resources, community youth development, and disaster relief.

We assisted more than 1.7 million children and adults in the United States in 2014 through leadership training programs, disaster response, and access to basic necessities such as clothing, food, and school supplies.

1,600+ COMMUNITIES
AND NEARLY 100 COUNTRIES

Poverty is complex and so are World Vision's solutions. Our integrated development model and on-the-ground experience ensures your investment has a direct, dramatic impact, boosting your brand and reputation for corporate social responsibility.

World Vision partners with local leaders and community members to design and implement sustainable solutions to their community's unique challenges, resulting in lasting transformation for children and families. Your World Vision representative can connect you with a range of turnkey or custom partnership opportunities that will help you meet your goals.
